

XK3192-H2DAS indicator

- Electronic digital weighing indicator
- Stable performance, convenient to set parameters, status monitor, independent big screen and computer interface, calibrating switch
- It has the functions of one key define address, calibrating without weights, auto adjust angle,etc.
- Suitable for different weighing situations and easy to operate.

Technical parameters

Digital load cell interface: RS485	Max. distance of digital load cell: 200m
Qty. of digital load cell: ≤12	Digital load cell power supply:DC12V or DC8V,500MA
Power supply:DC12V	Working temperature:-10°C to +40°C
Working humidity: 80%RH	Power: around 15W
